**NSS SPECIAL
CAMP**

Held at

Adapted village

MAISAMMAGUDA

From 02.03.2018

to

08.03.2018

NSS a unit of SPEC organized a special camp in adopted village maisammaguda from 02/03/2018 to 08/03/2018 .

This special camp was conducted for the sake of community service .the main purpose of this camp to implement our Action plan which is submitted to university .

DAY-1

The forenoon session of day begins with a procession by volunteers in village. Volunteers rallied in to street of village about ensuring special camp programme inauguration program held at St. Peter's Engineering College on our campus the program was inaugurated by our secretary T.V REDDY Sir and principal M.Narendra Kumar Sir along with department coordinators

Emphasized the role of NSS in community services programme conduct by NSS Programme Officer Mr.A.Anjaiah Sir

During the afternoon of first day volunteer interacted with kids and children's of ANGANVADI and Primary school in maisammaguda village. we play with them and we have learned that minimum number of facilities at school going children. The primary school has first to fifth standard but they have only two teachers

more over that government sponsored forenoon meals is not properly served .they have no playing equipment for students. shocking that water facilities absences even though they are kept the steel pot.Lack of basic amenities like drinking water and playing equipment. play ground gives a pathetic look and not fit for playing any games in soily the dust may occurs and it will harmful to students, but the thing is that cooking session is worst condition.

After this problems, the students of anganvadi where talked with us and felt ecstatic, we distributed the chocolates also ,mainly students are belongs to gundlapochampally and maisammaguda

After completion of school program we are assembled and we take break and we discuss about the camp and remedies, suggestions what they want, where they are lagging etc.....,

DAY-2

After completion of day one session during day time the survey was conducted to known basic facilities like toilets ,electricity, municipal work, water, food, garbage etc..,

About 50 volunteers divided themselves into sub group and went into streets, lanes and by lane of village, volunteers visited the people in their houses and discussed about the needs and requirements and harms of open defecation. Volunteers created awareness through door to door campaign on cleanliness ,spread of diseases , important of environment and uses of electricity, water humidity ,etc..., over hundred plus of houses are there in maisammaguda village. We told that uses of LED bulbs and how to minimize the mosquito's in there street. we spoke with old men's and asked about pension facilities from government, very happy with us and most probably all are spokes about school facilities poorly and we noted that problem.

The maisammaguda village is education hub and commercial, residentially. But they are wasting the food and throwing it outside due these mosquitos may developed. we told them that you must separate the waste like wet and dry. Even though the government was not given the dust bin that is green and blue color bins for separation of waste. We thing that we can generate a power that is called BIOGAS we went to farmers house and they said about government facilities was absence in village we noted problem, after this session we gather at a place and we had a lunch break and we written all problems and we discuss in session hour and remedies also , all sub group of volunteers said there remedies which have been seen and noted. for all above problems NSS Program Officer as noted.
